

### Optical Identification Scanner

Data Age products have the ability to use an optical ID scanner whereas the image of the ID will be saved on file AND simultaneously captures the data on the face of the ID and places it into the customer fields automatically!

Most of the time entering a transaction involves typing in the customer information: this is a HUGE time saver and makes the front counter that much more efficient.

It can also be used to pull up a customer when they come in for repeat business.

Optical Scanner Technical Specs:

<p><b><u>Dimension of ScanShell 800N</u></b></p> <ul style="list-style-type: none"> <li>• L x W x H: 185mm x 52mm x 40mm</li> <li>• Weight: 210g (7.4 ounce)</li> </ul>	<p><b><u>Scanner Specification</u></b></p> <ul style="list-style-type: none"> <li>• Image sensor: color CIS</li> <li>• Optical Resolution: 600 dpi x 1200 dpi</li> <li>• Interface: USB</li> <li>• Power Consumption: 0.2W Stand-by, 2.0W during Scanning</li> <li>• Scanning Area: A6, Maximum 4.2" x 7.0" (107mm x 178mm)</li> <li>• Scan Speed: 7.5ms/line color, 2.5ms/line Gray and Black &amp; White.</li> <li>• Scan Modes: internal 36bit, outputs 24bit true color, 8bit gray scale, 1bit black &amp; white.</li> <li>• Paper Sensor: Optical sensor</li> <li>• Twain compatible</li> </ul>
<p><b><u>System Requirements</u></b></p> <ul style="list-style-type: none"> <li>• Windows 98SE, ME, 2000 &amp; XP, Vista</li> <li>• Pentium 100MHz or higher CPU</li> <li>• 64MB of DRAM or above</li> <li>• VGA monitor with true color and at least 800x600 pixels</li> <li>• 60 MB free disk space</li> <li>• One USB port</li> <li>• A CD-ROM drive</li> </ul>
